Install the Fixture

1A

- 1** Determine the wanted height or look of the fixture with the provided stems and assemble them by screwing them together.
- 2** Feed the fixture wires through the stems and screw to the fixture tightly.
- 3** Screw the collar nut down until it is loose on the stem, then slide the canopy onto the stem.
- 4** Screw the shorter end of the threaded nipple tightly onto the mounting plate.
- 5** Feed the fixture wires through the mounting plate/nipple assembly and screw it tightly onto the screw collar.
- 6** Align the mounting plate to the electrical box and secure the fixture tightly with two mounting plate screws.
- 7** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 8** Connect the white fixture wire (square and rigid tracer) to the neutral power line wire with a wire nut.
- 9** Connect the black fixture wire (round and smooth tracer) to the hot power line wire with a wire nut.
- 10** Neatly place all the wires into the electrical box, place the canopy onto the ceiling, and secure it in place by screwing the collar nut tightly onto the screw collar.
- 11** Screw the lamps into the sockets. Refer to the label on the socket for Max Wattage Information.
- 12** Align the shade to the fixture arms.
- 13** Secure the shade to the fixture arms with the provided thumb screws.
