

# Interlace 45 Suspension

LED T20

## DESCRIPTION

A grand 45-inch aluminum outer ring is machined to receive hundreds of hand-strung strands of stainless steel cable which create an intricate, interwoven pattern. Powerful LEDs shine inward upon the reflective cables to create visually interesting general illumination. Hang this 45" Interlace on its own, or create a unique statement by installing a cluster with the smaller versions available, 18" and 30" diameter. Independent suspension cables allow multiple hanging angles. Includes 67 watt 2660 delivered lumens, 2700K, 80 CRI LED module. Dimmable with most LED compatible ELV and TRIAC dimmers. 277V compatible with 0-10V dimmers. Includes 12 feet of field-cutttable aircraft cable to match finish selection.

## WEIGHT
